

# SAP CHANGE MANAGEMENT KEEPING YOU REACTIVE?

## GET PROACTIVE WITH TRANSPORTCONNECT™

DGN TransportConnect™ provides your I.T. professionals a comprehensive suite of tools that provide extensive, real time analysis of the change objects in the transport, object versions, and automatic impact analysis on your business, regulatory and audit compliance, and validation requirements.

### LOOK BEFORE YOU LEAP.

#### PREDICTIVE ANALYSIS. PROVEN PREVENTION.

DGN TransportConnect™ is a complementary toolset to SAP's Change and Transport System (CTS) which includes predictive "what-if" analysis, rules-based enforcement of compliance policies, and prevention of unauthorized changes including:

- Object Collision and Critical Object analysis to prevent transportation of conflicting and unauthorized business sensitive objects.
- Organize, monitor, and report on changes by Transport Request, User, Object, Project, or SAP-issued Service Pack.
- Built In Transport Lifecycle Management with Change Request Tracking, Control and Audit logs – No more disjointed, manual, standalone, e-mail driven tracking of SAP Change Requests.
- Workflow-driven Transport Monitor with alert notifications and approval process.

### CHANGE WITH CONFIDENCE.

#### FROM DEVELOPMENT TO PRODUCTION, YOU'RE COVERED.

DGN TransportConnect™ is a total solution for change management of ABAP objects across your SAP landscape:

- Up to 66% reduction in manual effort required in managing and implementing SAP configuration and customization changes for system upgrades and maintenance.
- Emergency restore of SAP production environment through flexible "Transport Rollback" process
- Prevents unnecessary system downtime due to transport errors and greatly reduces customization and configuration errors by transporting the right objects the first time.
- Increases efficiency and lowers costs of operations for your enterprise compliance and remediation services.

#### WORKS YOUR WAY

DGN TransportConnect™ enables proactive management of customization and configuration projects with object dependencies and sequencing.

#### 100% SUPPORT BY DGN

DGN provides comprehensive support packages with each DGN TransportConnect™ installation. Platinum 24 x 7 service packages available direct from DGN.

#### HIGHLY COMPLEMENTARY TO SAP SOLUTION MANAGER

DGN TransportConnect™ provides a new level of functionality that incorporates predictive analysis, preventative maintenance, and workflow features to your change management team with real-time interface to SAP Solution Manager.
